Why DigiCulTS?

This project will support Small and Medium Enterprises (SMEs) up to 50 employees to find their place in the digital society.

The "Digital Revolution" meets all aspects of our life and culture. SMEs are challenged in this transformation process in a very specific way:

- On the one hand new technologies offer new business opportunities in a global market - almost independent of time and place.
- On the other hand many SMEs have a lack to make the most of digital technologies, restricted by financial and personal resources to be competitive.

DigiCulTS provides an innovative approach to learn about "Digital Culture" and digital competences by a package of tools and courses to get fit in the digital world!

Get ready with

DigiCulTS
Digital Culture for SMEs

for the digital future
